Why is this problematic?

- Recreation parks are suited for leisure/temporary
 - Pressure on housing quality/energy/waste/traffic...
 - Tensions with recreants, tourists and guests
 - Pressure on land use/urbanisation of open space/
-
- Local authorities do not have all the competences to intervene

Labour immigrants on the housing market (4)

- Regular use of housing stock by ethnic networks, employers, interim labour agencies,...
- Irregularities on housing market:
 - Illegal renting conditions
 - Failing Quality standards
 - Non registration

Why is this problematic?

More pressure on lower side of housing market

- Employers/companies buy/rent 'cheaper' houses: less opportunities for lower income groups
- Loss of housing quality by inappropriate use (low investment, trade off salary,..)
- Nuisance by 'male behaviour'
- Frustrations for social vulnerable groups

Let's face reality and act more proactive

- ✓ Cooperation between authorities, employers, institutions for housing policy, trade unions, community work, ...
- ✓ Creating a policy for 'studio's
- ✓ Activate vacant houses and a-typical buildings
- ✓ But only in the villages and urban grids
- ✓ Organize control and maintainance:
 - ✓ On housing quality standards
 - ✓ On renting conditions
- ✓ Proper taxation to balance gains and pains
